

SAFETY PRACTICUM

NAME: _____

LAB SECTION (Day/Time): _____

This assignment deals with the location and identification of safety items in the chemistry laboratory you are in this semester.

A. Locate the following items:

1. eye wash fountains (all)
2. safety shower
3. fire extinguisher
4. fume hoods (all)
5. fire blanket
6. nearest fire alarm (switch not just siren).

Draw a picture of your laboratory showing the location of lab benches, doorways, and the above-indicated items.

B. In case of an emergency:

1. Where is the nearest phone (think!)?
2. What emergency number do you dial?
3. Who else do you notify?

C. What route would you take if evacuation was required from the laboratory?

D. Where should handicapped or injured persons wait for assistance in case of a fire?
